

TOKYO SANGYO

CORPORATE GUIDE

We are pioneering a green future

as a “general machinery trading company

specializing in the environment and energy.

CORPORATE PROFILE

Corporate Profile

Company Name	TOKYO SANGYO CO., LTD.
Head Office	2-1 Otemachi 2-chome, Chiyoda-ku, Tokyo(8th Floor, Shin Otemachi Building)
Founded	Oct. 20, 1947
Capital	3,443,284,858 Japanese yen (Listed on the Tokyo Stock Exchange Prime Market)
Number of Employees	311 (updated on Mar. 31, 2023)

Main Banks

MUFG Bank, Ltd.
Mitsubishi UFJ Trust and Banking Corporation
The Yamanashi Chuo Bank, Ltd.
Sumitomo Mitsui Banking Corporation
Mizuho Bank

Our Businesses

Domestic and international sales of machinery, plant facilities, materials, tools, and chemicals.

History

On Apr. 16, 1942, Yasukichi Yasue established Daiwa Kikai Co., Ltd., to manufacture and sell machinery and equipment. In Mar. 1947, the company's trading name was changed to Tokyo Kenzai Kogyo Co., Ltd. In Jul. 1947, Mitsubishi Corporation was dissolved by a memorandum from the General Headquarters of the Allied Forces. Interested parties from the Machinery Department of Mitsubishi Corporation acquired a controlling interest in Tokyo Kenzai Kogyo, and the trade name was changed to TOKYO SANGYO CO., LTD. The changes at TOKYO SANGYO CO., LTD. after Jul. 1947 are listed below. With the support of Mitsubishi group companies, a new machinery trading company was established. The company's business was the domestic sales, import, and export of general industrial machinery and equipment. The anniversary of the foundation was decided to be October 20.

BUSINESS

Electric Power

We install power generation equipment and provide maintenance and after-sales service of existing equipment for electric power companies. From biomass fuel supply to plant construction and ash disposal, we provide a wide variety of services in the energy industry.

Environment, Chemicals, and Machinery

We sell and provide installation support for machinery used in chemical plants and as well as machine tools for automobile and IT facilities in Japan and overseas. We are also involved in overseas ODA, marine, and fishery businesses.

Lifestyle

We are widely active in lifestyle related businesses through our overseas locations, including packaging materials using green raw materials such as green polyethylene and automatic toilet flushers. Also, we are actively working to create new businesses.

Renewable Energy

We offer comprehensive support for a wide range of renewable energy projects, such as solar, biomass, biogas, hydro, geothermal, and wind power generation. Our services encompass all aspects, from construction to operations and maintenance (O&M), and we provide support based on our expertise and experience.

PRODUCTS and SERVICES

Renewable Energy

| Solar power business (company-owned, EPC) | Solar power plant maintenance | Biomass fuel business | Other renewable energy businesses | Boards for liquefied hydrogen equipment

DX, IoT, and Next Generation Mobility

| Commercial EV, storage battery systems, flexible solar panels, etc. | Remote monitoring systems utilizing IoT | Automatic sorting machines for Fruits using AI | Smart communications platform

Production Facilities and Equipment

| Equipment related to casting, processing, forging, and assembly | Boards for research and test facilities | Perforating machine | Diamond grinder | Post-wash contamination measuring equipment | Ice makers and caterpillar ice storage systems | Aluminum clad steel wire (coated with oil) | Drum shakers | Small hole EDM drilling machine | Sigrist PhaseGuard in-line interface monitor | Equipment for food plants

Lifestyle

| TOP PIC | Freshness maintenance, antibacterial, anti-mold, and additive agent materials | Gloves (nitrile, PE, CPE, and TPE) | Packaging and container products | Airwave (100% biodegradable packaging material) | Polyethylene, polypropylene, green materials, and raw materials

Electric Power

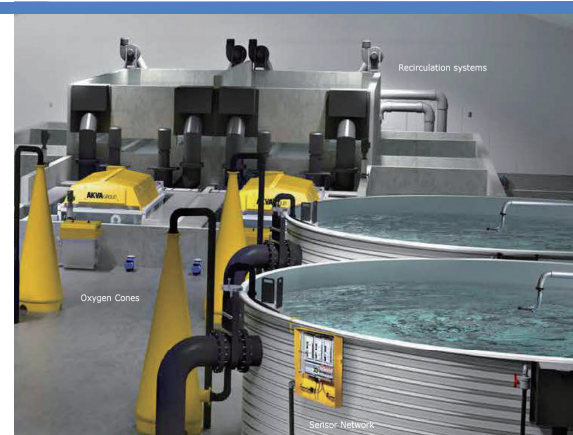

| Thermal power and nuclear power plant maintenance | Contacts (electric contacts) | Radioprotectors | Press boards (insulation) | Top/side ripple springs | Cargill Envirottemp®FR3® | Bushing (insulators) | Radiators | Peripheral equipment for hydrogen-cooled generators

Environmental Equipment, Energysaving Equipment

| CO₂ preventing Equipment | Various paints for reinforcement, heat insulation, etc. | Concentrated recycling plant for sulfuric acid, nitric acid, and hydrochloric acid | Waste solutions | HAMMELMANN (Germany) plunger pumps | Electrostatic Oil Cleaners (EDC series)

Infrastructure, Marine, and Fisheries

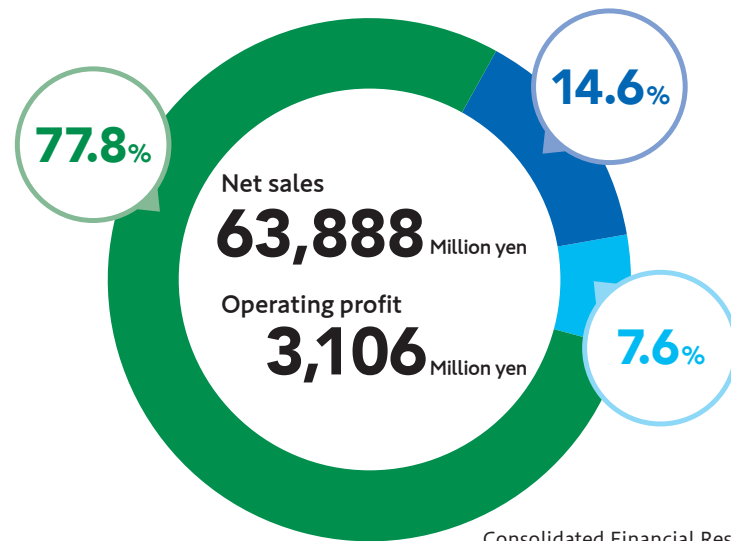

| High-density polyethylene pipes and ancillary equipment | Trenchless method | Trenchless method and related equipment and tools | Sea/land-based aquaculture facilities and equipment | K LAW LNG (England)/Gutteling BV LNG (Netherlands) transport system | Submarine cameras, vessel doors, and offshore wind power generation equipment | Oxford Plastics (England) liner materials | Strainers | Cement lining pipes | Centrifugal reinforced concrete pipes (jacking pipes) | Large diameter FRPGRP products (pipes, tanks, chimneys, etc.) | Industrial materials (flexible container bags, stretch films, etc.)

New Business

| Series Charge and Discharge Inspection Device | iFactory®; A Novel Modular-based Facility for Continuous Manufacturing of Chemicals | Flow chemical reaction facility | Delivery matching system (Tora Fit) | Effective use of coal gasification slag and coal ash (under joint research) | Hydrogen production from bio-resources and waste (under joint research)

CORPORATE DATA

Electric Power

Revenue from delivering new plant works and maintenance targeting for domestic power plants, delivery of machinery and equipment targeting for overseas power plants, fuel procurement for biomass power plants, etc., were ¥9.340 billion (+9.7% year on year) / the segment profit was ¥1.551 billion (+25.2% year on year).

	(Million yen)	
	As of March 31, 2022	As of March 31, 2023
Net sales	8,517	9,340
Operating profit	1,239	1,551

Environment, Chemicals, and Machinery

Due to the progress of the large-scale solar power plant EPC (engineering, procurement, and construction) project, and renewable energy projects that electricity sale prices at the Agano Solar Park contributed to throughout the year, as well as securing large-volume matters for equipment in other countries, aquaculture equipment, etc., sales were ¥49.701 billion (+7.4% year on year) / the segment profit was ¥1.451 billion (+16.6% year on year).

	(Million yen)	
	As of March 31, 2022	As of March 31, 2023
Net sales	46,294	49,701
Operating profit	1,244	1,451

Lifestyle

Shopping bags, our main line of products, had slumped as an effect of activity restrictions due to COVID-19, but they recovered somewhat against the background of rebounding individual consumption as restrictions were relaxed; sales were ¥4.845 billion (+19.3% year on year) / the segment profit was ¥0.103 billion (the previous consolidated accounting fiscal year had a segment loss of ¥49 million).

	(Million yen)	
	As of March 31, 2022	As of March 31, 2023
Net sales	4,060	4,845
Operating profit	△49	103

Topics

Establishment of CO2 Reduction Co., Ltd.

In order to respond to the forecast expansion in customer demand for renewable energy as part of our initiatives toward CO₂ reduction and decarbonization, which are positioned as priority themes in the Medium-term Management Plan that started in April 2023, we established CO2 Reduction Co., Ltd. in July 2022 as a subsidiary to sell devices to contribute to CO₂ reductions, in addition to sales of power through on-site power purchase agreements. The Tokyo Sangyo Group will continue to work as one in contributing to building a sustainable society.

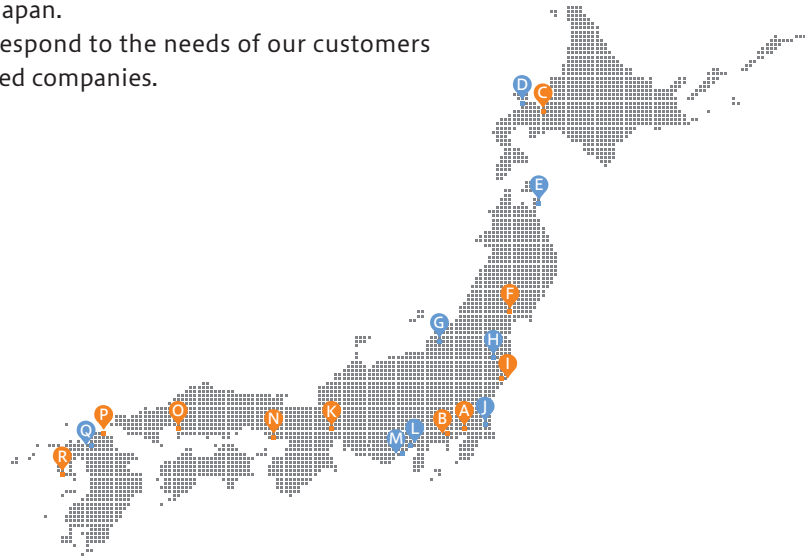

ORGANIZATION CHART

DOMESTIC NETWORK

TOKYO SANGYO has an extensive network of regional offices that cover the whole of Japan.
We are able to rapidly respond to the needs of our customers working with our affiliated companies.
